Academic Year 2023/2024

## Faculty of Mathematics, Natural Sciences and Information Technologies

The University of Primorska is successfully implementing its two core activities: research and education. In all of its functioning it is closely collaborating with the creators and users of knowledge locally and globally. The knowledge for the environment that the university is directly offering to companies, public institutes and other organisations is a quality upgrade of basic research and a precondition to effective use of intellectual potential of society and space in which it operates.
